A diverse portfolio

Designs for every lifestyle

At ABB we attach great importance to the details, whether it's a switch's acoustics, its feel, surface, color or material. And it's the range of these details that means we can now offer you an extensive portfolio of switches to suit both you and your living situation.

For modern-day minimalists

Impressivo, with its simple, timeless design is ideal for those who want a life less complicated. It's modernity and simplicity in one and lends itself perfectly to lovers of stylish, no-frill surroundings.

—
01

Illustration in original size

The cover frame measures 85 mm x 85 mm x 16 mm (w x h x d). Material: the rocker and frame are made of thermoplastic (PC), impact- and break-proof, UV-resistant, PVC- and halogen-free

01

Impressivo

Keeping things simple

A contemporary switch such as Impressivo gives a simple choice to those who prefer clarity over complexity. Today's fans of straightforward functionality and understated design will be in their element.

- 01 white
- 02 aluminium
- 03 anthracite

—
02

—
03

Clearly defined understatement

carat® makes a clear commitment to top-class design. Crystal-clear shapes and contrasting colors support a discreetly uncluttered interior design.

—
01

—
01

Illustration in original size

The cover frame measures 107 mm x 107 mm x 4 mm (w x h x d). Material: the rocker is made of thermoplastic (PC), impact and break-proof, UV-resistant, PVC and halogen-free; the frame is made of authentic materials

Mounting kits for carat® flat enable flush-mounted installation of the carat® range

03

01

04

carat®

From clear to extravagant

carat® unites straight lines and authentic materials in an independent object. The independence which can be admired in this switch range meets the requirements of sophisticated architecture.

- 01 studio white / white glass
2gang combination switch / socket outlet
- 02 anthracite / stainless steel
- 03 studio white / glass black
- 04 ivory white / gold (24 carat)
- 05 studio white / bronze
- 06 studio white / chrome

05

06

A class of its own

Your own living space deserves the very best; Busch-dynasty® offers just that. Handcrafted and developed together with international design experts, this switch offers an almost lavishly luxurious aesthetic.

—
01

—
01

Illustration in original size

The cover frame measures 106 mm x 106 mm x 12 mm (w x h x d). Material: the rocker is made of thermoplastic (PC), impact and break-proof, UV-resistant, PVC- and halogen-free; the frame is made of real metal surface except anthracite and ivory white

01

02

03

Busch-dynasty®

Each switch is one-of-a-kind

The brass used for this switch range is hand polished or brushed for an antique look and feel. The same care and attention is given to the rocker made of high-quality plastic – it's also hand-painted or brushed. Busch-dynasty® gives you a genuinely unique specimen with its own personal touch.

Outstandingly consistent

Unwaveringly stylish and consistent in form, material and design: pure stainless steel offers 100% quality and durability.

—
01

—
01

Illustration in original size
The cover frame measures 80 mm x 80 mm x 11 mm (w x h x d).
Material: the rocker and frame are made of stainless steel, the range is surface treated in a special manufacturing process. Fingerprints or other greasy stains are kept to a minimum.

pure stainless steel

One hundred percent

pure stainless steel uses 100 % stainless steel for cover frames and switches. At the same time, an invisible anti-fingerprint coating ensures that you leave an impression but without the imprint.

Inspiring individuality

The wide variety of materials available in the Zenit range allows for a wealth of individuality in the home. Such is their beauty, some houses might actually be designed around them.

01

01

Illustration in original size

The cover frame measures 85 mm x 85 mm x 7,5 mm (w x h x d).

Material: the rocker is made of thermoplastic (PC), impact- and break-proof, UV-resistant, PVC- and halogen-free, painted in anthracite; the frame is made of champagne glass

Zenit

Materials that fuel imagination

Glass, steel or even slate – the kinds of materials used in Zenit switches will open up any mind and offer a whole new world of architectural possibilities.

— **solo®**
Straight lines with
a gentle swing

Linear yet with a sense of swing:
solo® focuses on contrasts in
form and color. This switch
range creates something truly
special: a harmonious, relaxed
appearance.

Contemporary touches

Small features come together to create a stylish bigger picture. Our Busch-axcent® switch range stands for this interior design credo, combining consistently strong linear design with a variety of colors.

06

07

Busch-axcent®

Lively and rich in contrast

Busch-axcent® combines the power of purity and quality of high class materials – glass, thermoplastic, and metal – with contrasting colors that perfectly reflect your style.

The Busch-axcent® color spectrum is characterized by its vibrancy and choice. This is often applied in public buildings as a color-coded guiding system.
